4.2 The Specialist

I, Christiaan Horn Albertyn, declare that:

General declaration:

- I act as the independent Specialist in this application;
- I will perform the work relating to the application in an objective manner, even if this results in views and findings that are not favourable to the applicant;
- I declare that there are no circumstances that may compromise my objectivity in performing such work;
- I have expertise in conducting environmental impact assessments, including knowledge of the Act, the Regulations, and any guidelines that have relevance to the proposed activity;
- I will comply with the Act, the Regulations, and all other applicable legislation;
- I will take into account, to the extent possible, the matters listed in regulation 8 of the Regulations when preparing the application and any report relating to the application;
- I have no, and will not engage in, conflicting interests in the undertaking of the activity;
- I undertake to disclose to the applicant and the competent authority all material information in my possession that reasonably has or may have the potential of influencing: any decision to be taken with respect to the application by the competent authority; and the objectivity of any report, plan or document to be prepared by myself for submission to the competent authority;
- I will ensure that information containing all relevant facts in respect of the application is distributed or made available to interested and affected parties and the public and that participation by interested and affected parties is facilitated in such a manner that all interested and affected parties will be provided with a reasonable opportunity to participate and to provide comments on documents that are produced to support the application;
- I will ensure that the comments of all interested and affected parties are considered and recorded in reports that are submitted to the competent authority in respect of the application, provided that comments that are made by interested and affected parties in respect of a final report that will be submitted to the competent authority may be attached to the report without further amendment to the report;
- I will provide the competent authority with access to all information at my disposal regarding the application, whether such information is favourable to the applicant or not;
- all the particulars furnished by me in this form are true and correct;
- I will perform all other obligations as expected from a specialist in terms of the Regulations; and
- I realise that a false declaration is an offence and is punishable in terms of section 24F of the Act.

Disclosure of Vested Interest (delete whichever is not applicable)

- I do not have and will not have any vested interest (either business, financial, personal or other) in the proposed activity proceeding other than remuneration for work performed in terms of the Regulations.

Annexure 1: CV

Chris Albertyn holds a degree in chemical engineering from the University of Pretoria. He spent 15 years' service in the Council for Scientific and Industrial Research (CSIR) during which time he researched air pollution measurement and control techniques and served as consultant to many industries in South Africa. Other fields of experience gained at the CSIR include waste control and disposal, the development of chemical processes and aspects of engineering and measurements relating to occupational health.

On leaving the CSIR he started his own consulting business and has been active in private business for more than 30 years. His experience in the field of environmental investigations, management and control measures extends over a period of more than 45 years and he has conducted air quality investigations for numerous corporate clients and all levels of government departments.

He compiled air quality management plans for the Eden District Municipality, the Nelson Mandela Bay Municipality (Port Elizabeth), the Buffalo City Metropolitan Municipality (East London), contributed to the plan for the Limpopo Province and recently revised the air quality management plan for the Eden District Municipality. Each of these projects included the compilation of extensive emissions inventories, covering all of the possible sources in each area.

Chris assisted numerous industries, including hazardous industries and odour emitting processes, in their applications for atmospheric emission licences (AELs) by carrying out specialist air quality impact assessments that were based largely on detailed dispersion modelling studies. In addition to these studies, he carried out various specialist dispersion modelling studies for a number of industries, both locally and abroad. He currently serves as air quality consultant to the Coega Development Corporation's Special Economic Zone in Gqeberha (Port Elizabeth) and carries out all cumulative air quality impact assessments for the area.

Multi-disciplinary projects undertaken include the following:

- Coordination of a multi-disciplinary team of specialists to assist a waste disposal company to assess their operations for implementation of operating procedures and installation of equipment to attain regulatory compliance.
- Assessment of a wood pelletizing plant with the aim of optimising process efficiency, increase product recovery, optimise water usage and minimise atmospheric emissions.
- Modification and optimising of the effluent treatment activities of a tannery to reduce the potential of odorous emissions.

During his career Chris Albertyn served on the following committees:

- Chairman of a branch of the South African Institution of Chemical Engineers (SAIChE)
- President of SAIChE
- SAIChE's Council and Executive committee
- Professional Advisory Committee on Chemical Engineering of the Engineering Council of South Africa (ECSA)
- SANAS' Specialist Technical Committee on Air Quality

Chris is a Honorary Fellow of the South African Institution of Chemical Engineers and is registered as a Professional Engineer (PrEng) by the Engineering Council of South Africa (ECSA)

Prior to his recent retirement from the organisations, he was a Fellow of the Institution of Chemical Engineers, UK, and registered as a Chartered Engineer (CEng) by the Engineering Council in the UK, and a member of the Institute of Professional Environmental Practice (IPEP), USA where he was registered as an Emeritus Qualified Environmental Professional (QEP - Emeritus).
